

CAPRA

SEARCH AND RESCUE

PARTNERSHIP PLAN

2025 - 2026

ABOUT US

Capra is a scientific club from l'École de Technologies Supérieure, founded in 1999.

Our multidisciplinary team is focused on developing ambitious autonomous land robotics projects.

LATEST ACCOMPLISHMENTS

EnRich 2023 (Austria):

Best In Class - Search and Rescue

Out of 8 participating teams

ELROB 2024 (Germany)

Best Team Effort

YOUR CONTRIBUTION

Thanks to your contribution, our team will be given the chance to produce a quality project by meeting our performance objectives.

To show our gratitude for your support, many visibility plans are available.

Capra also accepts material contributions. The monetary value of these contributions will then be evaluated.
